3E

Provinding consultancy services and software products to improve the performance and optimize energy consumption.

A COMPLETE EXPERTISE IN ENERGY OPTIMIZATION

Founded in 1999, 3E is a company with 100 employees and 7 offices over the world.

3E supports their customers with several services such as the development and the operation of renewable energy installations. They also rework on installation systems to optimize the energy consumption and to offer their expertise analyzing energy produced and minimize the environmental impact.

They have three areas of activity: CONSULTING, SOFTWARE and INNOVATION. They have a whole team with consultants in order to help with your strategy for renewable energy and your energy projects.

A FLEXIBLE MONITORING SOLUTION FOR RENEWABLE ENERGY

SynaptiQ's is their solution for monitor, report and improve the performance of your solar and wind installations.

This plateform is compatible with all inverters and with over 70 datalogger brands including Webdyn solutions.
WEBDYNSUN - THE MOST FLEXIBLE DATALOGGER FOR 3E SOLUTIONS

For their SynaptiQ software, WebdynSun was obvious for 3E. The complementarity of these two products means that any customer who has this package in their hands gets their consumption well managed.

"We chose WebdynSun because of the stability and reliability it brings. We propose it as flexible, reliable and cost-effective solution for the monitoring of the solar installations. Being able to connect any Modbus device WebdynSun becomes a powerful tool for Solar datalogging device.
Our 77 customers so far are very happy and we have so far 2070 WebdynSuns integrated to SynaptiQ so far. As Manager of the SynaptiQ Support we hardly encounter issues with the WebdynSun but even if we do, WebdynSun's remote configuration capabilities makes it perfect for debugging. ", Ioannis Nanos - Operations Manager at 3E.

This commitment to Webdyn's products means that 3E offers the most robust and open products on the market. The Sun range now includes two products: WebdynSun and WebdynSunPM. As the needs of customers evolve, 3E will be able to offer them a complete power management solution for hybrid installations.

SYNAPTIQ PLATEFORM

« WebdynSun dataloggers are synonymous with a stable and reliable operation, as well as high configuration flexibility and remote configuration capabilities. They are certainly an added value to our SynaptiQ customers »
